Dear P&Z Commission:

I feel strongly that the wording in the following paragraph should be as follows (under Worship Place Accessory):

1. A zoning permit is required for an Ecclesiastical (spelling was wrong) Commercial Kitchen located within a Worship Place as an Accessory Use in all Districts. The purpose is to allow commercial kitchens in worship places to be used for leasing purposes by the worship place to support its operational and spiritual expenses. It is recognized (that) activities presently occur throughout the Town, (and) the intent.....(the rest is fine).

I dispute the regulations dictating what the revenue from such a lease can be spent on, but certainly not for the benefit of the congregation directly. I ask you to consider my alternate suggestion if you need to designate a use for the revenue.

Please make these comments public and consider them as part of the record for the 3/1/21 public hearing.
