Planning and Zoning Commission
Town of Litchfield, Connecticut

Re: Grease interceptors.

Commissioners,

Food establishments in Litchfield that are designated with a Class 1 Food license, issued by Torrington Area Health District (TAHD), are required to have a grease interceptor installed. These business would be performing cooking on the premises and the WPCA would provide inspections to ensure compliance with our regulations.

Food establishments that are granted a Class 2 food license, such as a coffee shop or take bakery out, would not be required to install a grease interceptor

If you have any questions please let me know.

Sincerely,

Terrence Donoghue,
Superintendent WWCF
