

Barkhamsted Community Gardens Social Distancing Guidelines

- Your safety is our utmost concern! Until conditions change, we are practicing social distancing guidelines, and expect all participants and visitors to do the same.
- Please remain at least six feet apart. (Our beds are already positioned six feet apart.)
- If you are working at your bed, and someone is at a bed next to you, try to remain on opposite sides of your beds. That way, you will maintain a distance of 14 ft.
- Please bring and use hand sanitizers and wipes.
- Do not share tools. Using gloves is recommended, especially when using any communal tools such as trowels, wheelbarrows, watering cans, hose fixtures, etc. Please use wipes to wipe them down when you finish.
- If at any point, you see 5 people already at the gardens, please come back another time.

Thank you in advance for following these guidelines for as long as is needed. We appreciate your cooperation and look forward to the time when these measures will no longer be needed.
